*"Thank you, thank you, thank you!
Before our therapists told us about Hatchbacks, our son had to wear shoes that were several sizes larger due to his AFO. Hatchbacks fit his foot correctly and are wide enough to support his AFO's. We have seen a tremendous difference since our son started wearing Hatchbacks. His walking has improved greatly."*

Angela S.

"I am really impressed that there is a shoe out there designed to fit over kids feet with braces. It makes life so much easier"

— Stephanie O.

"What I like about the shoes are the Velcro and that they are made for AFO's. My son is slowly learning to use his hands and the Velcro will make it easier. The other is price. I gave your web site to some of the moms today at the clinic he goes to for therapy because we are so sick of paying a lot of money for all the things our kids need."

— Georgiann V.

"Our daughter is 5 years old. For the first time ever, we have shoes that fit with her braces. She has real shoes that don't have the tongue cut out of them. She is thrilled that they are "Normal Shoes". They are so easy to put on and seem to steady her walking. Most people may think this is no big deal, but for us it is a huge deal."

— Sheilah R.

1

Finally shoes that are compatible with your child's AFO braces!

2

Hatchbacks® footwear is exclusively designed for use over AFO, DAFO, and other custom inserts. Hatchbacks® shoes feature our patented "Easy Fit" system. The Easy Fit system allows you to unfasten the side velcro straps and fold down the entire back half of the shoe. This open hinge design makes it easy to slide in the AFO. For a secure fit, simply fold the shoe back up and fasten the side straps.

3

When creating Hatchbacks® shoes, we engineer a unique custom last (the plastic form shoes are made around) that incorporated the extra length and girth measurements required when wearing AFO's. We build all of our shoes using this custom last, which eliminates the need to purchase shoes from other brands that are two sizes too big.

The result of this effort is a distinctive shoe specifically engineered for your child's needs. Please contact us directly for more information.
